### Experience

January 2018 to Present

**Student**  
The Art Institute of Tampa

September 2016 to January 2018

**Retired**  
Dunedin, FL

January 2012 to August 2016

**Information Technology Systems Specialist**  
*US Army General Staff, Pentagon DC*

- Hand-selected to provide technical communication support to the Army General Staff and Combatant Commanders by installing, administering, and maintaining secure Internet Protocol networks within the Pentagon, aboard Gulfstream GV's, and while on international travel.

December 2010 to December 2011

**Program Manager**  
*US Army, Kabul Afghanistan*

- Instituted unified employee training and tracking program that synchronized 140 on and off-site personnel to company policies and strategic international mission objectives.
- Planned, managed, and executed logistic support to include large-scale equipment movement in excess of \$2.5 Million in over 100 ground convoys as the convoy commander.

November 2006 to November 2010

**Telecommunications Specialist**  
*US Army, Frederick, MD*

- Fabricated, installed, secured, and tested coaxial cables, twisted pair, ground cable, low voltage power, and CAT-5 patch cables according to engineering diagrams. Installed and configured desktop computers, laptops and network printers.
- Installed and disassembled various radio, antenna, retransmission and command post configuration in support of the United States Secret Service, FBI, DISA Joint Director of Military Support, and local Police Departments.

October 2005 to October 2006

**Electronic Maintenance Supervisor**  
*US Army, Baghdad, Iraq*

- Installed, and maintained 33 sets of GPS tracking, short and long range communication, and electronic countermeasure equipment in military vehicles allowing communication and tracking of vehicles throughout Baghdad, Iraq.
- Managed 91 safety upgrades to vehicles resulting in no injuries or loss of personnel and equipment. Quickly became subject matter expert on newly fielded cross platform mobile tracking and communication equipment.
